[Pavillion BH results as of 07-17-2012.xls](#)

Greg,

At our last meeting, the WOGCC identified 3 Encana wells with bradenhead gas. You had asked for time to review the data before we had Encana do any work on these wells, 31-10, 41-10 B and 12-11W all in T3N, R2E. See the attached list.

Have you had time to review the data? Do you have any suggestions or a course of action?

Thank you.

Gary Strong, WOGCC
